STRUCTURE OF THE ASSOCIATION

The Association was resuscitated in 1995. In 2005 it was reconstituted as a TRUSTEESHIP following a CIDA-funded capacity building project. A new Management structure was established and a Management Committee appointed. The TRUSTEESHIP allows for more effective oversight of the overall functioning of the Association.

SAG acts as the liaison between operators and relevant government agencies, especially the Maritime Administration Department (MARAD). The Association is now recognized as the institution responsible for consultations with relevant agencies for improved infrastructure, re-framing laws and requirements regarding all aspects of shipping.

SAG is the bona fide representative in Guyana of the Caribbean Shipping Association (CSA).
